

B.S. Dental Hygiene

Program Admissions Requirements

Formal application for admission to the dental hygiene program must be submitted before January 15 of the year the student wishes to enter. Applicants must complete prerequisite courses and complete specific requirements for consideration. Applicants must have a minimum Cumulative Core and Natural Science Grade Point Average (GPA) of 2.8. Dental hygiene program information regarding current admission criteria and procedures can be obtained from the Dental Hygiene website at <https://isu.edu/dentalhygiene/>, or directly from the department. Application materials are submitted through the American Dental Education Association Centralized Dental Hygiene Application Service (<http://www.adea.org/dhcas.aspx>).

Admission to Idaho State University is a separate procedure and **must** be completed prior to application to the dental hygiene program. Students must provide verification of current CPR certification and vaccinations prior to beginning the program within the specified application year.

Academic Standards

To enroll in upper division courses with a dental hygiene prefix (DENT), students must be accepted for admission to the dental hygiene program. Each student is responsible for completing the required course work in proper sequential order. To be eligible for graduation and progression in the dental hygiene program, the student must have a cumulative grade point average of 2.25. Course work for which the student receives a grade below "C-" (C minus) will not be accepted as fulfilling requirements for the Department of Dental Hygiene. The department chairperson must approve any deviation from these standards.
