

B.S. Respiratory Therapy, non ISU A.S. or A.A.S.

(1 Year)

The Bachelor of Science in Respiratory Care is a completion program for graduates of an associate degree in respiratory care (therapy) from a regionally accredited institution. Idaho State University graduates with an Associate of Science in Respiratory Therapy will complete 29 upper division credits to complete the Bachelor of Science in Respiratory Care. For students transferring from other institutions, transfer coursework will be evaluated course-by-course and credit deficits in general education, lower division, and upper division credits must be completed prior to acceptance to the program.

Program Admissions Requirements

Code	Title	Credits
Completion of an Associate of Science or an Associate of Applied Science in Respiratory Therapy from a regionally accredited college or university.		

General Education

Students who have completed an AS from a regionally accredited college or university have their ISU general education requirements waived. Students who have completed an AAS may need to take additional coursework to fulfill ISU general education requirements.
